This home is large and in charge!

It doesn't look like one of the largest homes in West Ames, but it is! Come walk through it. You will be surprised. This spacious home has over 2700 sq ft of living space on the top two floors.

It has a modern, open living room/kitchen floorplan inside. Don't want to climb stairs? No problem. It has a primary bedroom/bath and laundry hookups on the main floor. Multi-generational living is convenient here with a 2nd primary bedroom/bath on the second floor with vaulted ceilings, and a fabulous Kardashian-sized walk-in closet. This bathroom has double sinks, a shower and a soaking tub. Cooks will enjoy the ample counterspace and double ovens. The butlers pantry is a great place to store your coffee machines and Kitchen Aid mixer, with room to add a wine fridge and another range/oven. A shaded backyard is the perfect retreat, with a deck and a space to grow vegetables in the far corner. The lot has space for a new garage addition. This neighborhood has large trees and lots of landscaping. The steel exterior has new paint; and note the new roof. The fifth bedroom (in the basement) and the 1/2 bath are ready for your future recreation.
